Mhd. Alghazouli

Frontend Developer

Location: Dacula, GA | Mobile: (678) 794-7091 | Email: mhdalghazouli95@gmail.com

Professional Summary

- **Front-end Developer** with more than **4 Years** of professional IT experience in front-end web development using fundamental web-tech like **HTML5**, **CSS3**, **Bootstrap**, **JavaScript**, **React.JS** & **jQuery**
- Proficient in UI design, developed Front End using **JSX**, **HTML5**, **CSS3**, **JavaScript**, **jQuery** and **React.JS**
- Good experience in building cross browser compatibility applications using **HTML5**, **CSS3** and **SASS**
- Comfortable working with **CSS** preprocessors like **SASS**
- Developing the application from scratch using **React Native** and **Redux**.
- Proficient in developing front-end systems with **JavaScript**, **jQuery**, **Bootstrap**, **HTML5**, **CSS3** and **JavaScript library** such as **React.JS**
- Single page applications using **HTML**, **CSS**, **JavaScript**, **JSX** and **React.JS**
- Experience in Cross-Platform Mobile Development using **React Native** and **Typescript** based mobile app.
- Good in **SQL**, **MySQL**, **SQL server** and **MongoDB** for views, Functions, Stored Procedures and Triggers
- Strong Experience in database design using **SQL** to write Stored Procedures, Functions, Triggers and strong experience in writing complex queries, using **SQL Server** and **MySQL**
- Expertise in using Version control Systems likes **GitHub** and Project Tracking tools like **Jira**
- Collaborative approach to working with customers and stakeholders throughout the development process, managing expectations, resolving issues, and providing project status
- Experience in developing business solutions Web based, client/server applications in multi-platform environments
- Experience in identifying defects, problems, suggesting and determining the extent of programming required and performance tuning of the applications
- Excellent interpersonal abilities, communication skills, time management and team skills

Skills

Languages:	HTML5, CSS3, JavaScript and XML
Databases:	MySQL and MongoDB with SQL
Frameworks:	React.JS, Express.JS, Node.JS, React Native and Bootstrap with jQuery
Others:	JSX, SASS, REST APIs, WordPress and MVC
Tools:	Jira, GitHub, Figma and MS office suite
IDEs:	Microsoft Visual Studio
Methodologies:	SDLC, Agile and Scrum
Operating Systems:	Windows and MacOS

Education

DigitalCrafts; Bootcamp | 2023

Georgia Institute of Technology; Bootcamp | 2018

Bachelor's Degree in Business Administration and Management | 2016

Future University, Egypt

Experiences

Client: Picket Homes, Remote, USA | Jan 2021 - Current
Role: Frontend Developer

- Involved in designing and implementing the web application using HTML5, CSS3, Bootstrap, React and jQuery with RESTful web service
- Utilized React.JS & JSX in development for building single page apps and to consume RESTful web services
- Created tables by using HTML5 and CSS3, SASS to display consumer's order information
- Handled browser compatibility issues working on various web browsers using HTML, CSS, JavaScript & SASS
- Creating new React components, containers, services, and APIs
- Responsible for React UI and architecture, Building components library, including Tree, Slide-View & Table Grid.
- Implemented stable React components and stand-alone functions to be added to any future pages.
- Used React JS for templating for faster compilation and developing reusable components.
- Implemented MongoDB and application route
- Developed user interface by using the React.JS, JSX for SPA development
- Implemented client-side Interface using React.JS
- Developed a front-end mobile application using React Native, Redux, Flex and JavaScript.
- Worked on Redux with React Native to handle large chunks of data for the better performance.
- Translate the designs from our design team into reusable interactive React native components.
- Developed custom bootstrap with brand appropriate styles, colors, animations and font icons
- Demonstrate fundamental usability skills to guide the design process for the best screen outcome
- Implemented responsive web design & mobile friendly design using Bootstrap grid system & CSS media query
- Directed development of applications featuring responsive web design, user authentication and image uploading capabilities, improving functionality and usability for clients and end users
- Adopted GitHub as version controlling tool, Commit, merge branch, and push codes on GitHub
- Work under Agile and Scrum environment

Client: SumatoSoft, Remote, USA | Jun 2019 – Dec 2020
Role: Junior Frontend Developer

- Implemented UI design with JSX elements and passes JSX attributes to component with props object
- Expertise in HTML5, XHTML, CSS2/CSS3, Bootstrap responsive design
- Hands on experience on XML Language
- Designing web pages for HTML with Rich design response UI to use libraries such as jQuery
- Designing and developing dynamic web pages using HTML, CSS, SASS, JavaScript, jQuery, JSX and React.JS for single page applications
- Developed cross browser & multi browser compatible web pages using HTML5, CSS3, SASS & JavaScript
- Leveraged two-way data binding through scope in applications built on React.JS
- Created interactive client-side scripting in JavaScript using jQuery JavaScript framework React.JS
- Used React.JS multiple in-built directives and APIs in React.JS & Node.js like filters, rootscope, childscope, modal, template, state etc.
- Developed custom directives in React.JS for app's independent components like sticky header for window or table, custom dropdowns, tables, checkboxes, radio buttons, notifications, chevrons, graphs, date pickers, pagination etc.
- Re-developed a single page application using React.JS which was supported in Firefox and Chrome
- Developed single page applications from start to finish to give it new look using HTML5, CSS3, JavaScript and React.JS
- Applied model-view-controller design pattern
- Participating in extensive code reviews
