MOE ALGHAZOULI

678-794-7091 | mhdalghazzouli@gmail.com | Github | LinkedIn | Atlanta, GA

I am a Full Stack Web Developer. My main skill is the ability to learn new things. My philosophy pushes me to keep learning new things to never limit apps that I work on to my current skill set.

SKILLS

JavaScript, HTML, CSS, BootStrap, Bulma, REST API, Node.js, Express.js, SQL, PostgreSQL, MongoDB, Mongoose, React, Github, CLI.

PROJECTS

To-do List (Node.js, Express, JavaScript, MongoDB, Mongoose, EJS, Bulma, CSS, JWT)   GitHub
A simple to-do list app for simple lives.
- Created a **REST API** back-end using **Node.js** and **Express.js** that connects to a **MongoDB** through **Mongoose** and renders the corresponding template based on the route requested.
- Developed **HTML** templates using **EJS** for the individual pages and styled them using **CSS** and **Bulma.**
- Built an authentication system with **JWT** that verifies user identity and fetches the user tasks upon success and lets them sign up otherwise.

K.M.E Real-Estate (JavaScript, HTML, CSS, Bulma, REST API)   GitHub
Lets users search for a property and view estimated property values (group project)
- Implemented an intuitive and sleek search system using **JavaScript**, that enables users to search for properties easily and provides an intuitive interface to sort and filter results.
- Utilized third-party **APIs** to fetch real-estate data in a specific area and to auto-suggest locations upon user input, which made for a convenient experience.
- Designed and developed the page using **HTML**, **CSS** and **Bulma** to enhance the user experience and add support to different screen sizes

EXPERIENCE

Software Technician Volunteer
RefCode   March 2022 – June 2022
- Collaborated on a website for **ASPCI.org** using Webflow.
- Helped mentoring students with **HTML**, **CSS** and **JavaScript** projects

Store Manager
Zz Mattress outlet / Zz beds and furniture / Home furniture outlet   April 2018 – Present
- Balancing the books using Excel to accurately report income, profit, and expenses to owners.
- Selling furniture and finalizing sales for customers.
- Managing inventory, generating sales reports and researching new vendors to reduce costs and manage merchandise availability.

EDUCATION

WebDevelopment - Digital Crafts   July 2022- Present
Full-Stack Development bootcamp
